

Meeting or Event Planners

WHAT TO EXPECT?

Having worked and planned Baruch College Alumni Association's 50th Anniversary celebration, Claire understands how much behind-the-scenes work goes into putting on an event and aims to make your job as hassle-free as possible!

BEFORE THE EVENT

Will work closely with you to familiarize myself with your audience (and their specific needs), your goals/objectives, and the theme of your event, and create a customized message with practical, actionable deliverables to best serve them.

DURING THE EVENT

My primary objective is to engage, educate, and empower the audience. I will use the power of story to teach pivotal lessons, principles, and strategies that they can implement immediately to raise their game!

AFTER THE EVENT

I will remain accessible and supportive after I leave the stage (or conference room). Will supply a menu of reinforcement (and accountability) tools and programs to help each participant put what they learned into action. My commitment to serving doesn't end when the event is over.
